

# SIT Indicative Grade Profile 2023

**SIT's broad-based admissions framework considers applicants holistically based on both academic merit and non-academic merit, to ensure that the right students are admitted.**

# SIT Indicative Grade Profile 2023

1. The percentages are aggregated across University programmes which accept A-Level qualifications within each academic cluster.
2. The last Graduate Employment Survey (GES) was conducted for the former Overseas University programme based on GES 2022. The currently offered programme has evolved into a joint-degree with SIT, and the joint-degree survey is only due in March 2024(GES 2023).
3. No GES data is shown as we have yet to graduate our first batch of graduates from this programme.
4. There is only one set of GES figures for the Food Business Management (FBM) programme, with no separation by specialisations.
5. The Graduate Employment Survey (GES) 2022 results were for 3 separate programmes before they were merged (with effect from AY2022 intake):  
Bachelor of Engineering with Honours in Marine Engineering:  
100.0%, \$3,750  
Bachelor of Engineering with Honours in Naval Architecture:  
100%, \$3,400  
Bachelor of Engineering with Honours in Offshore  
Engineering: 82.4%, \$3,550
6. There was no intake for BSc (Hons) Radiation Therapy in AY2023. The next intake for BSc (Hons) Radiation Therapy will be in AY2024.
7. Aerospace Engineering Programme had admitted its final cohort of students in AY2023.
8. The Food Technology Programme will be offered as an SIT-conferred degree program with effect from AY2024. The program will replace the SIT-Massey Food Technology joint-degree programme.
