Welcome Message

Welcome to SIT and congratulations to each of you on your successful completion / soon-completion of your National Service! Just as you have been eagerly waiting for the start of your university life, we have been looking forward to welcome you as our SITizen.

You would have heard much about SIT's applied learning pedagogy, which equips you with an industry-relevant education and future-proofs you by building deep skills. At SIT, you will be cultivated to be a 'thinking tinkerer', 'able to learn, unlearn and relearn', ready to face changes and disruptions in the increasingly complex world, and be a catalyst for transformation for both industry and community.

As you prepare for university life, you might be wondering, "What's next for me?". This handbook contains the essential information which will help you in taking your first step as a SITizen. It serves as your one-stop guide for topics ranging from important dates on matriculation to tips from your senior SITizens.

Once again, we warmly welcome you to SIT and wish you every success in your SITizen journey!

Ms Veronica Wong
Head, Admissions & Financial Aid

MATRICULATION & ADAPTIVE COURSES

MATRICULATION

All successful applicants who have accepted SIT's offers are required to complete the matriculation process before commencing their studies in SIT. To complete the matriculation exercise please refer to the MATRICULATION GUIDE, which will be sent to you by June 2025.

Important Dates and Deadlines

For the AY2025/2026 intake, the matriculation package will be sent to students via e-mail as per the schedule below:

- Food Business Management – 15 May 2025 onwards
- Allied Health Programmes (HSS) – 15 May 2025 onwards
- All other programmes – 2 June 2025 onwards

If you have not received the matriculation email by the above deadlines, please e-mail to Matriculation@SingaporeTech.edu.sg to retrieve your Student ID and password before starting the matriculation exercise:

AY2025/AY2026 Matriculation Exercise – A Step by Step Process Guide can be found in the **matriculation guide**. Students are reminded to complete all the steps mentioned in the guide STRICTLY BY THE DEADLINE.

ADAPTIVE ONLINE COURSES

What is it?

Adaptive online courses cater to individuals' learning needs and abilities, and encourage students to learn at their own time and pace. Currently, the subjects available are Math, Physics, Chemistry and English.

How does it benefit YOU?

The courses help to prepare you for your studies in SIT:

- To help you reach the desired level of certain core subjects competencies, such as Math, Physics and Chemistry, prior to starting your studies at SIT.
- To refresh your knowledge on fundamental concepts and techniques to solve Math, Physics or Chemistry-related problems.

When will they be available?

They will be available to you once you are matriculated. You can access them anywhere, anytime.

For enquiries, please contact us at:

- SITMathQuest@SingaporeTech.edu.sg for Math Quest matters
- SITPhyQuest@SingaporeTech.edu.sg for Physics Quest matters
- SITChemQuest@SingaporeTech.edu.sg for Chemistry Quest matters
- SITEngQuest@SingaporeTech.edu.sg for English Quest matters

Tips on

HOW TO BE A SITIZEN

SKYE TAN

Graduate from
Bachelor of Hospitality Business

Always be prepared as first impression matters. Networking, socializing and how to be a civilian again. Develop your personality and chase your passion.

RAVICHANDRAN PRADEEP KUMAR

Graduate from SIT-UoG
Bachelor in Mechanical Engineering

Life in University is going to get really busy, so know your limits and know how you perform. It is completely okay if you are struggling in the irst trimester. Take it as a learning opportunity to know what works out for you and what does not. If you have the extra time, engage in activities offered by the University. Put in your best efforts in your academics and at the same time, enjoy the University life!

AARON SIOW KAIREN

Graduate from
Bachelor of Food Technology

Coming back to school after 2 years of NS may seem daunting, but it is an enjoyable process once you get to it. Regardless of your background, SIT is an inclusive community that looks out for you and molds you to have the skills necessary to survive in the real working world. Strive to have a growth mindset and learn as much as you can from day one. Network and make as many friends as possible, you never know who you may turn to for help in future. Embrace change and make the most out of whatever that comes your way.

LOW QING EN

Graduate from
Bachelor of Engineering in Information and Communications Technology (Software Engineering)

Take charge of your own learning! The profs are ready to help but are you ready to put in the effort? Learn to be resourceful and maximize the internet, form study groups with your peers. Learn how to learn effectively, what may work for others may not work for you.
