NOTES

THE FUTURE IS YOURS TO SHAPE

We recognise and nurture our students through a wide range of scholarships made available by SIT and its extensive network of partners. Aside from academic merit, SIT scholars contribute actively to student life and embody the SIT-DNA - 'Thinking Tinkerers', who are 'Able to Learn, Unlearn and Relearn', while being 'Catalysts for Transformation' and staying 'Grounded in the Community'. SIT is committed to providing students access to an excellent education without letting financial challenges get in the way. Through SIT's financial assistance schemes, we aim to empower you to take charge of your education journey.

MOE TUITION GRANT

o help students manage the cost of full-time tertiary education in Singapore, the Government of Singapore offers a Tuition Grant Scheme that offers subsidies to eligible students.

> Singapore Citizens (SC) will be automatically awarded an MOE Tuition Grant (TG) with no bond obligation. Singapore Permanent Residents (SPR) and International Students (IS) will need to apply for the grant and commit to a Grant Agreement to work in a Singapore entity for three years upon graduation.

Students who have received TG for studies in degree programmes at NUS, NTU, SMU, SUTD, SIT, SUSS, LASALLE, or NAFA, will be eligible for TG up to the total credits required for graduation at SIT, less the percentage of semesters or trimesters of TG received at their previous university.

If you have already fully utilised your TG for degree programmes and were conferred degree qualifications, you will have to pay non-subsidised fees for the entire duration of your new programme.

If you graduated from a part-time undergraduate degree programme, awarded by then-SIM University, and were enrolled in the degree programme between 2001 to 2008, please contact us at Registrar@SingaporeTech.edu.sg for more information on tuition fees.

Please note that applications for loan schemes, subsidies, bursaries, and grants must be submitted by the stipulated deadlines. Information is correct at the time of printing. For more information, please visit at SingaporeTech.edu.sg/admissions/financial-aid

SCHOLARSHIP

IT invests substantially in its own scholarships to cultivate future leaders for Singapore's growing industries. The SIT Scholarship recognises students for their academic excellence, robust co-curricular record, and strong leadership qualities. SIT Scholars have the opportunity to develop into well-rounded individuals, play their part to shape the student culture at SIT, contribute to the community, and be responsible global citizens.

BUSINESS, COMMUNICATION AND DESIGN

Keisia Dominique Lim-Urquhart Year 1 **Food Business Management** (Culinary Arts)

The SIT Scholarship has given me a a platform to network with other driven and like-minded individuals. I look forward to expanding my communication and leadership skills through various activities and engagement programmes.

I am extremely grateful for the support that has enabled me to pursue my passion due to SIT's partnership with

I also hope to grow as a leader while being an advocate for my peers both inside and out of the kitchen.

ENGINEERING

Chun Wen Wei Year 1 Mechatronics Systems

Having been awarded the SIT Scholarship,

I have greater motivation to work even

harder in order to excel in school

and in the workforce.

Moreover, the Scholar Engagement Programme provides scholars with the opportunity to participate in specially curated activities, which allow us to learn how to sharpen our transferable skills and help us reach our maximum potential.

FOOD, CHEMICAL AND BIOTECHNOLOGY

Chian Chian Huey Year 2 Food Technology

I enjoy the applied learning approach at SIT, which provides me with hands-on experience from both lab sessions and work attachments. These experiences will be helpful when I start working in the industry.

Through the Scholarship Engagement Programme, I hope to become a good example for my peers. As an SIT Scholar, I desire to create value for the university as well as motivate fellow SIT students whenever I can to achieve their full potential.

HEALTH AND SOCIAL SCIENCES

Muhammad Shafiq Bin Jalavddin Year 1 Physiotherapy

The SIT Scholarship enables me to pursue my passion and motivates me to sustain good performance in my academics, extra-curricular activities, and contribution to the community/school.

I hope to blaze the trail for like-minded undergraduates in the future as well as my peers in school. I want to inspire them to give 101% in their endeavours and live by the motto 'the best is yet to be'.

FINANCIAL ASSISTANCE

RECIPIENTS

he wide range of financial assistance avenues available at SIT continue to enable many of our students, some some of whom are the first in their families to attend university, achieve their goals, and better their family situations.

TAN TILEY Final Year Chemical Engineering from TUM

I am the first in my family to attend university. I was drawn to the fact that SIT partners Overseas Universities (OUs) and have interesting immersion programmes with the various OUs to broaden students' horizons. Moreover, SIT's degree programmes are structured to provide practical knowledge and skillsets that are sought-after by industries. My family was concerned about paying the school fees and daily allowance I would need during my studies on top of our household expenses.

I was able to fully focus on my studies and spend more time with my family after receiving financial assistance.

CYRUS TONG Year 1 Computer Science

SIT's unique pedagogy for applied learning suits with my personal learning style. With the COVID-19 pandemic, my father who was working as a private-hire driver, saw his earnings dip. Hence, I started working to help with the family expenses. I have applied for the Tuition Fee Loan and SIT Study loan. It lightened my burden of paying the tuition loan and the Study Loan by providing me with a living allowance. I also applied for financial aid and received both the Higher Education Community Bursary and Conrac Asia Display Products Bursary.

With financial aid, I can devote my full

attention to learning. I cannot imagine having to work

and study at the same time given the current workload.

I chose SIT as it not only encourages a student to do well in their studies but to excel in their holistic development as well. Furthermore, SIT equips its students with the necessary skills and knowledge that is applicable to the current workplace and industry expectations. My dad is not fit for work as he is facing health issues. Hence, I intended to apply to Mendaki as they have been a great support in my education journey since I was in secondary school. They have been paying for my school fees. Therefore, I applied for the tertiary fund scheme when I enrolled into SIT.

I am thankful for the financial assistance as I am given the opportunity

to further my education without worrying about the fees.

NUR ANASHA BINTE ABDUL AZIZ Year 1 Accountancy

THAM YI LIN Year 1 Air Transport Management

Being the first in my family to attend university, I selected SIT because of my prior course of study at Temasek Polytechnic, where I studied Aviation Management and Services. My internship piqued my interest in the aviation industry, which I find fun and challenging. As a result, I was keen to continue my studies in this field. My main concern was school tuition fees. My father suffered a stroke two years ago, severely restricting his physical movements and forcing him to retire early. This placed a significant financial strain on my family. Prior to enrolling in SIT and getting financial help, I wanted to pay for my own studies. I've worked part-time jobs since my polytechnic days.

Most importantly, financial aid allows me to focus more

on my studies and it takes a weight off my shoulders.
